COMsolve

SITE AUDITING

With COMsolve's auditing services, gain actionable real-time information of telecommunications installations, including the status of your equipment and asset inventory.

⚙ **Full Site Audits**

⚙ **Safety Code-6 Auditing**

⚙ **QA/QC Services**

⚙ **Pre-Engineering, Construction, and Closeout Audits**

⚙ **Fixed Asset Real-Time Auditing**

⚙ **Maintenance Audits**

⚙ **SXU & MXU Fiber Audits**

Identify areas of improvement to your infrastructure and services such as cost-saving measures and industry & regulatory compliance.

Assess the health and status of your infrastructure, assets & equipment, antennas and transmission systems, to ensure optimal performance & user satisfaction.

AUDITING SERVICES OFFERINGS:

SAFETY CODE-6 AUDITING

RF emission level testing to ensure the safety and compliance of your wireless sites. We also provide certified SC-6 training for telecom workers.

QA/QC SERVICES

Build your future network by implementing fixed asset real-time auditing to reconcile what was deployed in the field, and what's on your screen.

FULL SITE AUDITS

For new sites or reviewing an existing installation, evaluate the health and status of infrastructure, assets & equipment, antennas and transmission systems, to ensure optimal performance & user satisfaction.
