

nSuite Canada is a bundled platform built specifically for Canadian telecom carriers to manage thousands-block pooling, number porting, and regulatory compliance with ease. It combines three best-in-class tools- nVentry, nPort, and nView-into one seamless, cloud-based solution. If you're tired of spreadsheets, siloed systems, and the stress of CRTC audits, nSuite Canada delivers control, clarity, and compliance in one place.

Why Choose nSuite?

-  Eliminate siloed tools and manual spreadsheets
-  Gain visibility across your entire numbering ecosystem
-  Simplify compliance and regulatory reporting
-  Easily scale operations with a secure, cloud-based solution
-  Real-time access to Canadian NPAC data

Modern Number Management purpose-built for Thousands-Block Pooling.

TN INVENTORY MANAGEMENT

Track, monitor, and report on your Telephone Number inventory. Maximize your available TN resources and automate your TN ordering needs.

AUTOMATED THOUSANDS-BLOCK POOLING WORKFLOWS

Comes with built-in support for Thousands-Block Pooling, created for a TBP environment in mind.

LOCAL NUMBER PORTING TOOLS

Port your phone numbers quickly and efficiently. A LNP solution that allows for Bulk Port Management and workflow automation.

REAL TIME DASHBOARD & INSIGHTS

View real-time numbering insights and data. Receive accurate information that includes NANP and Pooling Admin data, Calling Name Values, Toll Free and more.

Fully Compliant with CRTC/CNA Guidelines
