

# COMsolve

## AUDITING SERVICES

With COMsolve's auditing services, gain actionable real-time information of telecom installations, including the status of equipment and asset inventories, network infrastructure, and sources of service disruptions. Our experienced team can target areas of improvement to your network services, identify cost saving measures, and your overall industry & regulatory compliance.

### AUDITING OFFERINGS

Assess the health and status of your infrastructure, assets & equipment, antennas and transmission systems, to ensure optimal performance & user satisfaction. We offer a wide range of auditing services including:

Full Site Audits

Pre-Engineering, Construction, and Closeout Audits

Fixed Asset Real-Time Auditing

Maintenance Audits

SXU & MXU Fiber Audits

### SAFETY CODE-6 AUDITING

RF emission level testing to ensure the safety and compliance of your wireless sites. We also provide certified SC-6 training for telecom workers.

### QA/QC SERVICES

Build your future network by implementing fixed asset real-time auditing to reconcile what was deployed in the field, and what's on your screen.

### INTERFERENCE TESTING

Pinpoint unwanted and unexpected interferences to your network's performance.
